ENRICHMENT CLASSES are designed for high school students who want to earn credit in a class they have not yet taken. (Classes must have a minimum enrollment of 10 students)

10 UNIT (YEAR-LONG) CLASSES (MEETS 7:45-NOON)

PRE-CALCULUS A/B: Functions and their graphs; polynomial and rational functions; exponential and logarithmic functions; trigonometric functions; analytic trigonometry; applications of trigonometry; linear systems and matrices; sequences and series; analytic geometry; limits and an introduction to calculus.

ALGEBRA II (3,4): A study in greater depth of the algebraic properties, polynomials and rational expressions; the real and complex number systems; first and second degree equations and inequalities; systems of equations; functions; exponential and logarithmic functions.

GEOMETRY A/B: A study of Euclidian geometry with an emphasis on logical proofs; line and angle relationships; congruent and similar triangles; constructions with compass and straight edge; loci; areas and volumes; polygons.

3 UNIT (ONE QUARTER) CLASSES

AP PHYSICS PREP: This online course is designed for students who plan to take AP Physics during their senior year, but have not yet taken a calculus course. Covers two basic operations in calculus: derivatives and integrals. Applications are limited to those found on the AP Physics tests. **This is not equivalent to any calculus course, nor can it be used as credit recovery for a physics course.** Requires weekly on-campus testing. (Students take a 3-week session, beginning no later than Monday, July 8)

INTRODUCTION TO ANDROID APPS CREATION: Learn how to create custom apps for your Android-based device! Use App Inventor software to design, program and test a wide range of apps. Simple games, music players, location-aware tools and the ability to control other devices are just some of the exciting things you can do. It's great fun and challenging at the same time. No programming experience required. Students must have a Google account and you must provide your own Android device (although not required). **(Class begins Monday, June 24: 5-week class)**

GUITAR: A class for beginning or intermediate guitar students. Learn to play or improve your skills on the acoustic guitar. You will learn how to tune, play notes on the fret board, and form chord progressions. Bring in your favorite contemporary music and learn to play these tunes. You will also learn techniques to "play by ear." Students must provide their own acoustic guitar for the class. **(Class begins Monday, June 24: 5-week class)**

TECHNIQUES OF DRAWING & ILLUSTRATION teaches students the techniques applied to cartooning and illustration. No previous drawing experience is required. Advanced students will have the opportunity to create their own comic strip or book. (Class times offered: 9:25-10:55am and 11:05-12:35pm). **(Class begins Monday, June 24: 5-week class)**

AMERICAN LITERATURE OF MODERN WARFARE (3-week course): An investigation of non-fiction, firsthand accounts of war to explore the gut-wrenching, moment-by-moment chronicles of combat, studying the authors' use of literary conventions to garner a more nuanced understanding of the writers' purpose and motivation. The authors' disquieting account of modern warfare will help us delineate the importance of the genre in the canon of contemporary American Literature. **(Class meets from 12:15 to 1:15 p.m.; June 17 – July 3 only.) \$50/student;** some book costs may be required.

SPORTS CLASSES offers students high school credit training in the skills required to participate in a competitive sport. Time and days vary depending on the sport; please check carefully. **THESE CLASSES ARE OPEN TO ALL BOSCO STUDENTS.**
