ENRICHMENT CLASSES are designed for high school students who want to earn credit in a year-long math class they have not yet taken. They are worth 10 units (year-long) and meet 7:45-Noon. Classes must have a **minimum enrollment** of 10 students.

Due to the COVID-19 pandemic, our school will not offer Geometry or Algebra II this summer. If you are interested in taking one of these courses, please consult your academic counselor for alternatives. Our only 10-credit enrichment course this year will be Precalculus.

PRECALCULUS: Functions and their graphs; polynomial and rational functions; exponential, logarithmic, trigonometric functions; analytic trigonometry; applications of trigonometry; linear systems and matrices; sequences and series; analytic geometry; limits and an introduction to calculus.

ELECTIVE/PREP CLASSES

LITERATURE OF WAR: D-DAY — JUNE 6, 1944 (2-week course): In this reading and writing course, we will study the planning and the frontline developments of the assault to open a second front in World War II. We will explore gut-wrenching chronicles from infantrymen about battlefield experiences of leadership and sacrificial courage as symbols of some profound truth that speaks to the strength of the human spirit/heart amid the chaos and brutality of war. The authors' disquieting accounts will help us delineate the importance of the genre in the canon of contemporary American Literature. **The class meets Mon-Thurs 12:30-1:30 p.m.; June 15 – June 25. \$60/student;** some book costs are required.

AP CHEMISTRY PREP (6-week asynchronous online course from 6/15-7/24): This course is designed only for Bosco students who plan to take AP Chemistry during their junior year, but did not take Honors Chemistry the year before. This class will cover concepts from Honors Chemistry including, properties of matter, dimensional analysis, chemical nomenclature, atomic structure, the periodic table, chemical bonds, and others to give them the fundamental knowledge necessary to succeed in AP Chemistry. This is not equivalent to any chemistry course, and it cannot be used as credit recovery for any chemistry course. **\$150/student.**

AP PHYSICS PREP (3-week asynchronous online course, **beginning no later than Monday, June 29**): This course is designed only for Bosco students who plan to take AP Physics during senior year, but have not yet taken a calculus course. It covers the two basic operations in calculus: derivatives and integrals. It is not equivalent to any calculus course, nor can it be used as credit recovery for a physics course. Requires weekly testing. **\$150/student.**

TUITION AND REFUND POLICIES

Tuition:

5-unit class (2 hrs) - \$300 EACH

10-unit class (4 hrs) - \$600
